General hacks provided by FPSCheats.com

Game:
CounterStrike: Source
BattleFront 2
BattleFront 2: 2142

Features:
Hardware Spoof
MAC Spoof
Official rogue server for stat padding

Advantages:
Harder to ban the player for cheating. Stat padding can open features more easily for cheats.

Software Mechanism:
Unknown

Site:
   http://www.mpcforum.com/showthread.php?t=185503

Game:
   Day of Defeat

Feature:
   A pretty wall hack. Leaves the appearance of the original
   wall but makes it transparent.

Advantage:
   The ability to see players others would not be able to see.

Software Mechanism:
   Appears to replace game texture files.

Site:

Game:
    Battlefront 2

Feature:
    Modifies the windows registry entry containing the CD key

Advantage:
    Makes it more difficult to ban a player.

Software Mechanism:
    Accesses the windows system registry and rewrites the
    value of the key stored for the game.

Site:
http://www.mpcdownloads.com/forums/downloads/BF2/Black Omega-1.2-PE/6548.html
Game:
    Battlefield 2
Main Features:
    NameTags, Nametags Distance, Distance Tags, Health Bars
    Minimap, 3d Map, Radar & Bridge Icons
    Shellshock Removal, Flash Removal, TVG Static Removal
    Weapon Chams, Player Chams, Mobile Object Chams,
    Commander Asset Chams, Mine Chams, Enemy Mines
    ASUS Wallhack, WhiteWalls, Wireframe, XQZ Wallhack
    No Fog, No Water, No Sky, No Scope
    Team Switch, Squad Jumping
Advantages:
    View hidden information which gives the player a better
chance to kill enemy.

Software Mechanism:
    DLL file injected into the game

Site:
http://www.mpcdownloads.com/forums
/downloads.php?do=file&id=6060
Game:
Counter-Strike, Day of Defeat
Main Features:
Autoaim, Anit-Recoil, Auto-fire, Spin hack
Anti-Kick
Wall hack, chams for targets that can be hit behind walls
Hit box, Name display
White walls, wireframe models, white units, Wallhack
Color wall, anti-flash/smoke, speed hack, shield transparent

Advantage:
